

KOREA2023

Honor is an essential component of becoming a Master Instructor in Songahm Taekwondo. While demonstrating honor to the living may be clear, it becomes difficult to honor the past, especially when you have not been taught. In our ever-changing world, it is easy to lose sight of or take the path that has been paved for us for granted. Affixed in the ATA International Headquarters museum is a picture of Eternal Grand Master H. U. Lee, guiding hundreds of men and women of different backgrounds and ethnicities on a journey through the motherland of Taekwondo, Korea. Many of those who attended this trip have become Licensees, Master, Senior Master, Chief Master, and Grand Master Instructors. This portrait is an extraordinary depiction of Eternal Grand Master's vision and commitment to changing the world through the power of teaching effective life skills, such as honor.

Since the first trip to Korea in 1987, ATA International has maintained this tradition and expanded the experience through advanced training, competition, and building community with the ATA family of South Korea. We are proud to announce that in May of 2023, ATA International, faculty members of Lee College, and students of Songahm University will be traveling to Korea again. On this trip, we will learn more about the history and culture of Korea by visiting Gyeongju, which is considered the birthplace of Korean culture. We will spend time in the capital city, Seoul, which is a massive metropolis where modern architecture, efficient transit, and pop culture collide with Buddhist Temples, palaces, and street markets.

Current ATA International members and their families are welcome on this unforgettable trip. Space is limited, so reserve your spot today. For more information, please email training@ataonline.com.

Dates

Departure	May 15, 2023
Return	May 25, 2023
